EXPERIENCE

Bank of America
Summer Associate, Strategy & Management | Charlotte, NC / New York, NY June 2026 – August 2026

- Developed an AI-enabled growth strategy projected to generate $1M+ in incremental revenue by improving client acquisition and conversion, presenting actionable product and business recommendations to senior leadership.
- Analyzed deposit performance, client complaints, and product-level data to identify customer pain points, evaluate success metrics, and prioritize opportunities to improve digital banking experiences.
- Developed a Statement of Work (SOW) defining project scope, timelines, and OKRs; aligned 6 cross-functional stakeholders and maintained escalation logs, contributing to a 40% improvement in operational efficiency and client satisfaction.
- Created AI-enabled solution mock-ups and visual prototypes to align product and business stakeholders, communicate customer needs, and support decisions on client experience improvements.

University of North Carolina at Chapel Hill, University Libraries
Graduate Assistant, AI & Operations | Chapel Hill, NC August 2025 – Present

- Develop and evaluate LLM-powered AI agents using prompt engineering, iterative testing, and human-in-the-loop validation; improved literature-search workflow efficiency by 35%.
- Developed a machine learning sentiment classifier to analyze student feedback on the AI workspace, identify sentiment trends, and inform improvements to user experience.
- Built predictive models to forecast program profitability, analyze revenue and cost drivers, and inform resource allocation and planning.
- Develop Power BI and Tableau dashboards tracking KPIs and program outcomes; delivered responsible AI training to 100+ faculty and student groups..

IBS Consulting
Product Manager, Go-To-Market & Client Solutions | Ontario, Canada May 2023 – June 2025

- Led end-to-end development and launch of a client portal, aligning stakeholder requirements, product milestones, and go-to-market execution to achieve 15% profit margins.
- Analyzed 1,000+ user interactions and product performance data to prioritize 10+ product features and workflow improvements, guiding testing and iteration to improve user experience.
- Applied quantitative analysis and market insights to develop customer-focused growth strategies, contributing to a 15% increase in client acquisition and informing business priorities

Vodafone
Data & Operations Analyst March 2021 – April 2023

- Built Power BI dashboards tracking KPIs and resource utilization, enabling leadership to measure operational effectiveness and make data-informed decisions under tight timelines.
- Automated KPI and performance reporting using Python and SQL, reducing reporting time by 40% and improving the scalability of recurring analytics workflows.
- Conducted competitive and market analysis to assess customer needs, identify differentiation opportunities, and inform digital transformation and go-to-market strategies

LEADERSHIP

Girls Who Code, UNC Chapel Hill
Academic Mentor

- Organized and delivered STEM instruction for elementary and high school students, developing technical skills and supporting student engagement.
- Liaised with partner organizations and managed tutor onboarding, including sign-ups and background checks, to coordinate program staffing and delivery.

Student Technology Council
Product & Operations Lead

- Led 5+ product initiatives from ideation through execution, using feedback from 500+ users and 6 key performance metrics to prioritize features and drive 25% growth in user engagement.

SKILLS & CERTIFICATIONS

Technical: Excel, SQL, Python, Tableau, Power BI, Generative AI (ChatGPT, Copilot), LLM-enabled Workflows
Core: Program & Project Management, OKRs, Stakeholder Mapping, Cross-Functional Collaboration, Program Communications, Performance Reporting, Data Analysis, Process Improvement, Decision/Escalation Log
Certifications: Lean Six Sigma, Computer Programming, Data Analytics, Microsoft Azure AI Fundamentals
